

HOW TO MAKE A  
**WHITE  
WOMAN**

**FALL IN LOVE** WITH YOU  
FROM ONLINE CHAT

PHOTO: GETTY IMAGES / PHOTOFEST

When it comes to chatting white ladies up, you have to understand that they are different from Nigerian ladies.

Their country is different...

What they like is different...

What turns them on is different...

What makes them fall in love is different as well...

If you follow the things in this book, you will understand that your Oyinbo client and get her to fall heads over heel in love with you

So how do you get these ladies to love you

First, let's start with the types of ladies that are easier to get

The types that will fall in love with you ASAP without much stress

Go for those over 40

They are working hence they have the money you need

Also, being single at 40, they are eager for love

## **RESEARCH**

Now when you have identified a target, the next step is research

Before you start chatting your client up, find out about her. You will want to find out everything you can before chatting her as this will help later on.

Check her bio for informations there

If can be her hobbies(things she loves doing), her pets, job, passion, if she has kids, age, where she lives, what she loves e.t.c

It is important to know this important early

When you see them, you can take a pen and paper and list them to her name

There is something I like doing; I have a list of all my clients, and beside their name, I write informations about them

Things like their pet, nicknames, children, birthday, things I see on their bio or they have told me

I will explain why later

## **APPROACH**

Second important step is how you approach her

The way you approach her will determine if she answers your message and later fall in love with you giving you what you want or snub your message or even block you

To message her for the first time, you want to go gentle and different  
Do not send a hi... There are many people that have sent her hi before

You want to send something that will make her like you from the very first text  
Something that will make her open your message and her heart for you

How do you know what to say?

One of the ways to get this is from the information you got from your research  
For example, if on her Facebook profile, she has pictures of her dogs

You can use a line like: " I was going through my feed and the pictures of your dogs came up, I have to say they are the most beautiful of all creatures I have seen today...after you of course"

You can use something like "Hi, I just spent the last 10 minutes debating if those cute dogs beside you are mountain shepherds or Belgian Malinois. Please help me here...They are super cute btw"

I'm obsessed with your puppy! How long have you had them?

Those types of messages make them smile and they want to have a conversation with you

Foreign clients love some uncommon things

For some, they may have a garden

You can type something like "

If her job is on her bio, you can say something like “Who knew accountants could be this hot?”

If she posts a lot of pictures about sports or adventure you can ask questions about it:

- Your hiking pictures are always amazing! Where's the best place to go around here?
- I've been dying to get into rollerblading! It looks so fun!
- Living for all your travel #TBTs, where's the next place you want to visit, post-COVID?
- Check her stories as well majority of them posts music or books you can use any of these
- You always have the best music in your stories! I'd love to swap playlists.
- I love all the books you've been posting in your story. What are you reading right now?

The key is to compliment what they do and if possible ask a question relating to it

So find something about her, and get her to talk to it

It is a sure way to get her to start talking with you

If there is nothing on her bio you can talk about, here is a list of 100 pickup lines that work every time!!!

- I'm taking a poll: Do you think asking someone out through a DM is creepy or courageous? I'm leaning towards the latter, but I want to know what you think.
- There must be something wrong with my eyes. I can't take them off your pictures.
- I'm no photographer, but I can picture us together.
- Do you have a sunburn, or are you always this hot?”
- The library's closing. Mind if I check you out instead?
- I might not go down in history, but I'll go down on you!

- Life without you would be like a broken pencil... pointless.
- I've been thinking about you from a.m. to p.m., so I figured it's time to send you a DM.
- I'm glad I remembered my password. 'Cause I am totally checking your profile out!
- If kisses were snowflakes, I'd send you a blizzard.
- Girl you so hot, if you had to enter Antarctica you'd cause a melt down

- I thought happiness started with an H. Why does mine start with U?"
- Hey, my name's Microsoft. Can I crash at your place tonight?"
- Can I tie your shoes? Because I don't want you falling for anyone else
- Let's play Titanic. I'll be the Iceberg you'll go down on.
- You look so familiar... did we take a class together? No? I could've sworn you and I had chemistry
- What's the most random DM you've ever gotten? (I'm really hoping it's not this one.)

- No wonder the sky is grey today, all the blue is in your eyes.
- What would you tell your parents if you started dating someone you met through a DM convo? Just curious.
- You've been everything I've been searching for... Hey, are you Google?
- I won't give you a cheesy pick up line, if you let me buy you a drink
- If I were a stop light, I'd turn red everytime you passed by, just so I could stare at you a bit longer.
- If the world was made out of chicken, you would be a hot wing.
- If Internet Explorer is brave enough to ask you to be your default browser, I'm brave enough to ask you out!
- Did you get your license suspended for driving so many guys crazy?
- Oh no! You've caused me to slip and slide into your DMs!
- I'm jealous of your heart. 'Cause it's pumping inside you and I'm not.
- Can you take me to the bakery? Because, I want a Cutiepie like you!
- If you were my homework, i'd do you everyday.

- Forget that! Playing doctor is for kids! Let's play gynecologist.
- Was that an earthquake or did you just rock my world?
- "What would you tell your parents if you started dating someone you met through a DM convo? Just curious."
- "I'm taking a poll: Do you think asking someone out through a DM is creepy or courageous? I'm leaning towards the latter, but I want to know what you think."
- "Hi there. I just started a new job giving unsolicited social media advice. My advice for you is to post more pictures of us together. Don't worry, I can help you with that."
- [Sent in two different messages] "Hey! Sorry I accidentally tagged you in my last pic. I meant to tag my friend, whose name is similar to yours." "Was that convincing or can you tell I'm just looking for an excuse to talk to you?"
- "This is probably pretty bold of me, but you know what they say: carpe DM."
- "What do first base and your inbox have in common? I'm terrible at sliding into both of them, but I'm still going to give it a try."
- "I'm just going to be direct: I'm trying to send you a message."
- Tell me the truth. How long have you been waiting for a text message from me?
- You're so beautiful that I actually forgot that I was supposed to send you a pick-up line.
- Okay, let's skip the small talk and go straight to flirting.
- To know me is to love me. Are you ready to get to know me?
- You see, I really suck at starting conversations. Do you want to try?
- Here's hoping that you find my willingness to text first attractive.
- You wanna know what the best thing in my life is? It's the first word of the previous sentence.

- I'm making the first move by texting you. I hope you make the next move by kissing me.
- I wanted to ask if I messaged you already, but I know I would remember someone as beautiful as you.
- I have Netflix and no one to snuggle with. Do you think you can help me out?
- If you want to make a move on me, now is the perfect time. Go for it!
- Answer this quick! What can I text you to make you mine?
- Do you believe in love at first text, or should I text you again?
- "Is your name Google? Because you've got everything I'm searching for."
- "Are you an angle that's less than 90 degrees? Because you're acute-y."
- "Are you a loan? Because you definitely have my interest."
- "Are you my wisdom teeth? Because I have a feeling that I should take you out as soon as possible."

## CONVERSATION

When they have responded to your message this is how to continue

Talk a bit more about the subjects

If you asked about their dog, you will now tell them you used to have a dog like that

If it was a compliment, and she replied continue with another compliment

The key is to stay on track with your first line

Maybe sure the text you send next corresponds with the first one and her reply to the first one

Use that thing you talked about to start a conversation

After you have chatted about that topic for a while, you want to know her better

Ask her about herself

But do not tell her “Tell me about yourself” plenty Naija guys have used this line and they recognize it

Instead, use:

- Interest me in you
- In five sentences describe \*her name\*
- If you were on Oprah, how will you introduce yourself as a live show guest, how will tell the audience about yourself

These questions are even more effective than the common one she hears everyday.

To get to know more details about her, here are more questions to ask her

- So, what do you like to do for fun these days?
- Would You Rather Win An Olympic Medal, An Academy Award Or The Nobel Peace Prize?
- If You Had To Leave Earth On A Spaceship And Take 4 People You Know, Who Would They Be?
- Would You Rather Spend Five Days Exploring Disney World Or New York City
- Sunrises Or Sunsets?
- What Has Been Your Worst Date Ever?
- If You Could Only Eat One Pizza Topping, For The Rest Of Your Life, What Would It Be?
- Cats Or Dogs?
- If You Could Have Only One View Out Of Your Window, For The Rest Of Your Life, What Would It Be?
- What's On The Top Of Your Bucket List?
- What's The Best “Hidden Gem” That You've Ever Found?
- If You Could Live In One Period Of History, What Would It Be?
- What's The Worst Job You've Ever Had?

- Where Do You Want To Retire?
- Where Is The Most Beautiful Place You Have Been?
- Where Do You Want To Travel To Next?
- Have You Traveled To More Countries Or States?
- If You Were Captain Of A Ship, What Would You Call It?
- Who Is Your Favorite Mythological God/Goddess?
- On The First Day Of Ruling The World, What Would You Do?

When she tells you about herself get a notepad and write those things(I will explain why later)

## **MAKE IT ABOUT HER**

Tell her about yourself but keep it short

Tell her about your hobbies...it is best if you say a hobby that she also likes. That will keep the conversation going and make her like you more

Talk about interests, movies, music...interesting things but don't talk about yourself too much

Then go back to talking about her

Talk to her about the things she told you about herself

You can ask her to tell you more of her job, or her favorite show or her zodiac sign

Oyinbo women like talking about themselves

If you let them talk about themselves, they will think you care and will fall in love

## **BRING THINGS UP**

....Remember the things i asked you to write down, now is the time to bring them out...

You will bring it up once in a while

If she told you she has a garden, the next morning ask her about her garden. You can even ask her to send a picture of it

If it was a colleague at work. The next day when you ask her about work ask her about that colleague in particular

Anything she has told you about, look for a way to bring it up later the next day  
Look back at her answers to your questions and use this to proceed

When you talk about things she has told you before, it makes you caring.

She assumes you think about her and remember things about her so she is important to you.

This alone can make her block every other person she's chatting with and focus on just you

Don't underestimate this tool!!

## **TAKE YOUR TIME**

This is the mistake most beginners make

When they are bombing, and find a client they start asking for something immediately

Don't ask for anything yet

Wait for at least a week of chatting with her

Plenty guys like you have messaged her before so if you want her to love you and give you money, you have to behave differently

Keep the chat going for long before you ask for anything

Build a connection with her

Spend days talking about random things, and learn a lot about her.

The more you know about her, the better it will be for you

It can be time-consuming, but its totally worth it

## **HOW TO ASK**

Don't ask directly

Ask without looking like you are asking

E.g instead of asking her for money for mortgage

When she asks about your day you can tell her it was bad

Then tell her you are broke, you are behind your mortgage and they will kick you out next week and you have exhausted every means to get money

By herself, she will offer to give you money

Or if you want a phone

You can tell her your phone is bad and you won't be able to chat anymore

If she's in love with you, she will not want you to go and she by herself will beg to buy you another one

You get?

If you follow all these things, your Oyinbo client will fall in love with you and wire your aza on a steady

## **HERE ARE A FEW BONUS TIPS:**

### **TEXT HER AT NIGHT**

Get to know her time zone and text her around 10pm

Night is when you can easily get her to fall for you

You will have her full attention, and if the chat goes well, she will sleep thinking about you

Here is another list of messages you can text her at night

1. "Hope you had a great day today. Sweet dreams!"
2. "Tell me about the best thing that happened to you today."
3. "Want to hear about the funny thing that happened to me today?"
4. "I'll be able to sleep better if I know I'm seeing you soon. What are you doing this weekend?"
5. "I'm falling asleep, but just wanted to let you know I'm thinking about you."
6. "You know what the worst part of going to bed is? I have to stop talking to you (until tomorrow, at least)."
7. "Enjoy your beauty sleep — not that you need it."
8. "I could text you all night, but then I'd be too tired to text you tomorrow."

9. "It's one of those nights where I wish I had a cuddle buddy (and ideally, that cuddle buddy would be you)."
10. "You must be exhausted... because you've been running through my mind all day. (Sorry, that was cheesy.)"
11. "Night, cutie. Can't wait to see you in my dreams."
12. "I was distracted all day because I couldn't stop thinking about you."
13. "Wish you were the big spoon to my little spoon RN."
14. "I always fall asleep with a smile on my face when I'm thinking about you."
15. "Here's your nightly reminder that you're adorable. Sleep well."
16. "I love getting texts from you at night, but what I really want is to get you in this bed."
17. "I hope I make a cameo in your dreams tonight... especially if it's a naughty one."
18. "I had the dirtiest dream about you last night. Here's hoping I have it again tonight."
19. "Oh, the things I'd do to you if you were in this bed with me..."
20. "Fun fact about me: I like to sleep naked. Do with that information what you will. Nighty night!"

## **GRAMMAR:**

This is one mistake many guys make.

When chatting with ladies, they don't care about their grammar, and most ladies especially foreign ones are very particular about grammar

Making grammatical mistakes is one thing that can spoil all the work you have been doing to make her like you

There's a simple solution you can use

There is an app Grammarly. When you install it on your phone, set it as your default keyboard.

Grammarly not only helps correct your spelling, but it also corrects your grammatical errors too

And it even suggests better words you can work

When you type with Grammarly wait for a few seconds before sending for it to cross-check your message

If there is a mistake, it will highlight it and suggest a new word for you

If it is all correct, you will see a green button

If you use a laptop, go to your browser extension and install Grammarly.

It works the same as on phone too

You can also download the app for PC.

Grammarly is free but it will require you to register.

You can find it google play store or the app store

Once a sad lady was walking along the beach thinking of the worst state of her life cycle. Her husband asked her for divorce. As she was walking, she tripped over something in the sand. The woman picked the object up revealing a lamp.

The woman rubbed the lamp and a genie appeared before her. "I will grant you three wishes," the genie said "but whatever you wish for your husband will get double."

The woman thought and thought, then made her first wish "I wish for 10 million dollars." POOF! The wished for ten million appears at the woman feet, some distance away 20 million dollars appears at her husbands feet.

The woman thinks again and makes her second wish, "I wish for a pile of diamonds three feet high!" POOF! A pile of diamonds appears at the woman feet, a pile of diamonds six feet high appears at her husband's feet.

The woman thinks and thinks, ponders and ponders; finally she says to the genie "Now, whatever I wish for my husband gets double?" The genie replies, "That is correct."

Female: Okay but call the nurse too.

Doctor: Why, you don't have trust in me?

Female: I do, but my husband, who is outside, doesn't have trust in me...

Husband: I am feeling so happy while seeing your friend.
